The Full Story
"I am sad. I am tired. ...There is an ugliness and cruelty in our national rhetoric that is reaching a fevered pitch here at home, and that should worry us all."

"Our staff, and particularly our female staff, are met with hostility at a level that we had never seen before, and frankly, it's not acceptable. They are doing their job; they're doing what we've asked them to do."

"The political gamesmanship has empowered some County Supervisors to demand retraction of evidence-based public health guidance. It has encouraged and rewarded political allies to rail against science and data-driven measures to protect our neighbors. It has emboldened others to think it is appropriate to treat public health professionals with disrespect and disdain when they are just trying to do their jobs with skill and grace."
Disinvestment in Public Health

“...We don’t say to the fire department, ‘Oh, I’m sorry. There were no fires last year, so we’re going to take 50% of your budget away.’ That would be crazy, right? But we do that with public health, day in and day out.”

"People need to take a step back and take a deep breath and try to look at this from the health officers' and the healthcare workers' standpoint. ...We are all overworked, overwhelmed, exhausted, mentally and physically."

Outdated Data Systems and Technology

“The nation’s public health data systems are antiquated and in dire need of security upgrades – paper records, phone calls, spreadsheets and faxes requiring manual data entry are still in widespread use and have significant consequences including delayed detection and response, lost time, missed opportunities, and lost lives.”

— Janet Hamilton,
Director of Science and Policy,
Council of State and Territorial Epidemiologists

Utah, SB 22, Public Official and State Capitol Protection Amendments

- Amended the Public Safety Code to require the Department of Public Safety to provide for the security and protection of public officials.
- “Public officials” include public health officials who are elected to positions in the executive branch of government OR are appointed to/employed in the executive branch and engage in policymaking, drafting legislation/makes rules, or partaking in adjudicative decisions.
Oklahoma, HB1876, Open records; personnel records; public employees; emergency

- Public bodies shall keep confidential personal information of current and former employees including: home address, home phone numbers, private email address, private mobile phone number.
- The previous statute did not include mobile numbers or email addresses.
Colorado, HB21-1107, Protections for Public Health Workers

- This bill makes it a criminal misdemeanor to disseminate personal information of public health workers if dissemination poses an “imminent and serious” threat to the official's or worker's safety or their families.

- Public health worker includes employees or contractors of the Department of Public Health and Environment engaged in public health duties, employees or contractors of a county or district public health agency, and members of a county or district board of health (not including elected county commissioners).

- Previously this only applied to law enforcement officials and their family members and victims of domestic violence, sexual assault, and stalking.
Oregon, HB3047, Relating to disclosure of personal information; and declaring an emergency.

- Creates a civil cause of action for persons whose personal information was shared online with the intent to harass, humiliate or injure.
- Personal information includes home address, personal email address, personal phone number, social security number, contact information for employer, contact information for a family member, photographs of children, identification of school that children attend.
- Applies to ALL persons.
Maryland, HB1380/SB957, Criminal Law, Threats Against Public Health Officials

- Criminally penalizes those who “knowingly or willfully make or send” a threat to a public health official with the intent to intimidate, interfere with, or impede their official duties.
- Specific to public health officials only.
South Carolina, H.3728, Threatening to kill or inflict bodily harm, offense created

- This bill makes it a criminal offense to threaten to kill or inflict bodily harm on a public official, public employee, or a member of their immediate families.
- “Public employee” includes state and local officials.
- “Public official” means state and local elected or appointed officials.
Alabama, HB403, Doxing, Crime, Penalties

- Would have established “doxing” as a crime, and would have penalized a person for publishing personal identifying information of a public servant with the intent to annoy, harass, or impede the duties of that person.
- Public servant includes any officer or employee of government.
